**THIRD QUARTER
FISCAL YEAR 1978**

Bureau of Program Operations

INTRODUCTION

The Medicaid Management Reports are published by the Bureau of Program Operations' Division of Reports and Analysis. These reports are designed to present some current data on State Medicaid programs and to identify program trends through a series of tables and graphs. They are prepared quarterly from data submitted by the States to the Federal government on forms OA-41 and HCFA-120.

The Medicaid Management Reports provide the Bureau of Program Operations with national and individual State trends that are used to help identify States and program areas in which program monitoring activities should be centered. In addition, it is hoped that publication of the data in this form will result in an improvement in the quality of the data submitted by the States to the Federal government.

Types of data presented in the Medicaid Management Reports include:

Amount of State Medicaid Expenditures

Amount of the Federal Share of State
Medicaid Expenditures

Amount and Distribution of Medical Vendor Payments by
Type of Service

Average Monthly Number of Medicaid Recipients for whom
Medical Vendor Payments were made

Average Monthly Participation Rate in Medicaid
by Public Assistance Recipients

Average Monthly Payment per Medicaid Recipient
by Basis of Eligibility

Number of Children Screened and Referred under
EPSDT

The data presented should be used with caution for the following reasons. There is much variance between States in the types of medical services covered under Medicaid and in the designation of groups eligible for Medicaid. Data which are generated through State claim payment systems are affected by the time lag between the provision of medical services and payment for those services. Only data from the OA-41 report has been verified by the Federal government. Lastly, incomplete reporting by the States may distort the national totals and averages.

QUARTERLY HIGHLIGHTS
APRIL-JUNE 1978

For the quarter ending June 30, 1978, total Federal and State Medicaid expenditures in the United States increased by 8.8% to \$5.0 billion as compared to the corresponding quarter ending June 30, 1977. Over the same period, the average monthly number of Medicaid recipients in the United States decreased by 7.4% to 8.5 million. Medical Assistance Payments rose by 8.5% to \$4.7 billion, while expenditures for State and local administration and training for Medicaid rose by 13.2% to \$254 million between these two periods. The adjusted Federal share of total State and local Medicaid expenditures for the quarter ending June 30, 1978, was \$2.8 billion, an increase of 7.8% from the corresponding quarter in 1977.

Institutional services accounted for the largest proportion of Medical Vendor Payments made during the quarter ending June 30, 1978. Inpatient hospital services accounted for 31.2% of all payments made, while ICF and SNF services accounted for 23.8% and 17.6% of all payments made, respectively. Clinic Services experienced the largest percent increase in payments in the United States between the quarters ending June 30, 1977 and June 30, 1978. These payments increased by 26.4% to nearly \$61 million.

AFDC related children comprised the single largest group of Medicaid recipients in the United States in the quarter ending June 30, 1978, representing approximately 30% of all Medicaid recipients reported.

During the quarter ending June 30, 1978, 36.2% of all public assistance recipients in the United States used Medicaid services. Aged individuals who were also SSI beneficiaries had the highest rate, 61.0%, of Medicaid use of all eligible groups on public assistance.

The average monthly payment for all Medicaid recipients in the United States during the quarter ending June 30, 1978, was \$184.30, an increase of 18.8% from the corresponding quarter in 1977. Aged and disabled recipients, with average monthly Medicaid payments of \$286.00 and \$307.97, respectively, were the eligible groups with the highest average monthly payments in the United States during this period.

During the quarter ending June 30, 1978, a total of 548,407 children were screened in the United States under the EPSDT program. This represented a 7.6% increase in the number of children screened from the corresponding quarter in 1977. Nearly 48.4% of all children screened in the United States were found to have referable medical conditions. Of those children found to have referable conditions, 88.8% were subsequently referred for diagnosis and treatment.

Wyoming	1,715,201	8.1	1,633,288	8.8	81,913	54.8

* Percent change from same period previous Fiscal Year

** Will be different from the Federal Medical Assistance Percentage because of different matching rates for administrative activities and family planning. Also, the adjusted Federal share in some instances includes amounts representing major adjustments from prior periods which are not reflected in the total computable expenditures used as the denominator in computing the percentage.

Source: NCSS120 for Medicaid recipient counts, "Supplemental Security Income Monthly Statistics" (SSA/ORS) for SSI recipient counts, "Public Assistance Statistics" (SSA/ORS) for AFDC recipient counts.

Table 10

Participation rate derived by computing the number of Medicaid recipients receiving cash assistance as a percentage of SSI or AFDC recipients as appropriate. Participation rate for the Aged, Blind, and Disabled may exceed 100% because SSI recipient counts include only recipients of Federally administered payments, while Medicaid recipient counts for some States include individuals receiving only a State administered State supplement.

Guam did not report.

Table 11

Average monthly payment computed by dividing the sum of the three monthly recipient counts into the sum of the three monthly payment amounts.

Other Title XIX column includes both individuals under age 21 covered by Title XIX and individuals aged 21-64 covered by a State assistance program other than Title XIX.

Guam did not report.

GLOSSARY

I. FINANCIAL DEFINITIONS

COMPUTABLE FOR FEDERAL FUNDING - Expenditures made by a State Medicaid agency associated with the operation of the Medicaid program which are matchable by Federal funds.

MEDICAL ASSISTANCE PAYMENTS - Those payments made for medical care by the State directly or on behalf of the agency by a fiscal agent. Such payments may be in the form of vendor payments made directly to providers of medical care or in the form of per capita premium payments made to HMOs, or other prepayment plans, and Medicare Part B (SMIB) premium payments, but does not include payments into a pooled fund arrangement.

TOTAL EXPENDITURES - Includes expenditures for Medical Assistance Payments and for administrative and training activities associated with the operation of the Medicaid program made by a State Medicaid agency.

CUMULATIVE EXPENDITURES - All expenditures made Federal fiscal year to date.

STATE AND LOCAL ADMINISTRATION AND TRAINING - The administrative and training costs associated with the operation of the Medicaid program in a State which may include the functional costs of eligibility determination, policy formulation, direction, claims processing, payment process and training, and includes salaries and employee benefits, supplies, equipment, postage, travel, fiscal agent costs etc., associated with these functions.

ADJUSTED FEDERAL SHARE - The Federal share of Medical Assistance Payments and administrative and training costs associated with the operation of the Medicaid program which are incurred by a State Medicaid agency and matchable by the Federal government per the various matching formulas for Medicaid expenditures. The adjusted Federal share reflects financial adjustments (both increasing and decreasing) that are made to the Federal share by the State when expenditures are reported to HCFA.

II. ELIGIBILITY CRITERIA

Medicaid is designed to provide medical assistance to those groups or categories of people who are eligible to receive cash payments under one of the existing welfare programs established under the Social Security Act; that is Title IV, the program of Aid to Families with Dependent Children (AFDC) or Title XVI, the Supplemental Security Income (SSI) program for the aged, blind and disabled. Medicaid eligibility is available to people who fit into one of the categories of people covered by the cash welfare programs as aged, blind or disabled individuals, or as members of families with dependent children when one parent is absent, incapacitated or unemployed. Medicaid eligibles are classified as categorically needy or medically needy within the above categories. The categorically needy are those individuals who are receiving cash assistance or would be receiving such assistance if they applied under one of the cash welfare programs described above. The medically needy are individuals who would be eligible for welfare except that their income is too high. In addition, some States have exercised the option of including other needy persons in their Medicaid programs who do not fall into one of the above categories. Such individuals are classified as "other" Title XIX recipients.

III. DEFINITION OF SERVICES

INPATIENT HOSPITAL SERVICES - All items and services furnished by a licensed or formally approved hospital, which are provided under the direction of physicians or dentists for the care and treatment of hospital inpatients, and which are billed for by the hospital.

GENERAL HOSPITAL - A hospital maintained primarily for inpatient care of acute illness or injury and for obstetrics or tuberculosis.

MENTAL HOSPITAL - A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.

INTERMEDIATE CARE FACILITY SERVICES - All services provided, and billed for, by an institution furnishing health-related care and services to individuals who do not require the degree of care provided by hospitals or skilled nursing facilities as defined under title XIX, but who because of their physical or mental condition require care and services above room and board. Intermediate Care Facility (ICF) services may also include ICF services for the mentally retarded receiving active treatment in certified institutions for the mentally retarded or persons with related conditions.

SKILLED NURSING FACILITY SERVICES - Skilled nursing or rehabilitative services provided under physicians' orders on an inpatient basis and billed for by a certified facility that meets standards for skilled care established under the title XIX program.

PHYSICIAN SERVICES - All services provided and billed for by an individual licensed under State law to practice medicine or osteopathy. Exclude all such services that are provided as a part of inpatient or outpatient hospital services, or of clinic or laboratory services, and billed for by the hospital, clinic or laboratory.

DENTAL SERVICES - Any diagnosis, preventive, or corrective procedures administered by, or under the supervision of a dentist. The term "dentist" means a person licensed to practice dentistry or dental surgery.

OTHER PRACTITIONER SERVICES - Services provided by and billed for by licensed practitioners other than physicians and dentists. Services of professional nurses (registered nurses or graduate nurses) should be limited to private duty services in a hospital or nursing home. Payments to optometrists should include, where applicable, payments for eye glasses.

III. DEFINITION OF SERVICES - Continued

OUTPATIENT HOSPITAL SERVICES - All preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services furnished to outpatients, by a hospital and by, or under the direction of, physicians or dentists.

LABORATORY AND RADIOLOGICAL SERVICES - Professional and technical laboratory and radiological services provided in an office or similar facility (other than a hospital outpatient department or clinic) or by a qualified laboratory.

HOME-HEALTH SERVICES - Includes the following items and services furnished to a patient in his home (excluding a hospital or nursing home) on recommendation of a physician: Inter-mittent or part-time nursing services provided by a home health agency, or by a registered professional nurse or licensed practical nurse when no home health agency is available to provide such services; medical supplies, equipment and supplies suitable for use in the home; and services of a home health aide.

FAMILY PLANNING SERVICES - Any medically approved means, including diagnosis, treatment, drugs, supplies, and devices, and related counseling which are furnished or prescribed by or under the supervision of a physician for individuals of child-bearing age for purposes of enabling such individuals freely to determine the number and spacing of their children.

CLINIC SERVICES - All preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services furnished to outpatients by, or under the direction of, physicians or dentists in a facility which is not part of a hospital, but which is organized and operated to provide such services to outpatients. Services rendered by HMO's are to be reported by type of service. Services rendered by physicians in a general group practice are to be billed as physician services.

PRESCRIBED DRUGS - Any simple or compounded substance or mixture of substances prescribed by a physician, dentist, or other licensed practitioner for the cure, mitigation, or prevention of disease, or for health maintenance. For reporting purposes, prescribed drugs will be primarily those dispensed by licensed pharmacists. Drugs administered directly by a physician or other practitioner are to be reported as prescribed drugs if charges for them are separable from other charges of the practitioner.

OTHER CARE - Any type of medical care or services not classifiable under one of the items defined above.

IV. MISCELLANEOUS DEFINITIONS

AVERAGE MONTHLY PAYMENT PER MEDICAID RECIPIENT - The average amount per month of all Medical Assistance Payments made on behalf of a Medicaid recipient by basis of eligibility.

PARTICIPATION RATE IN MEDICAID BY PUBLIC ASSISTANCE RECIPIENTS - The percentage of individuals who are receiving cash payments under the Aid to Families with Dependent Children (AFDC) or Supplemental Security Income (SSI) programs for whom a claim is paid this quarter.

EPSDT - A program of early and periodic screening and diagnosis of individuals under the age of 21 who are eligible under the State plan. The program ascertains their physical or mental defects, and provides health care, treatment and other measures to correct or ameliorate defects and chronic conditions discovered through screening.

MEDICAID SERVICES STATE BY STATE,

DECEMBER 1, 1977 ✓

*BASIC REQUIRED MEDICAID SERVICES: Every Medicaid program must cover at least these services for at least everyone receiving federally supported financial assistance: inpatient hospital care; outpatient hospital services; other laboratory and X-ray services; skilled nursing facility services and home health services for individuals 21 and older; early and periodic screening, diagnosis, and treatment for individuals under 21; family planning; and physician services. Federal financial participation is also available to States electing to expand their Medicaid programs by covering additional services and/or by including people eligible for medical but not for financial assistance. For the latter group States may offer the services required for financial assistance recipients or may substitute a combination of seven services.

Services provided only under the Medicare buy-in or the screening and treatment program for individuals under 21 are not shown on this chart.

Definitions and limitations on eligibility and services vary from State to State. Details are available from local welfare offices and State Medicaid agencies.

			Additional services for which Federal financial participation is available to States under Medicaid																				
			Clinic services	Prescribed drugs	Dental services	Prosthetic devices	Eyelenses	Private duty nursing	Physical therapy and related services	Other diagnostic screening procedures and rehabilitative services	Emergency hospital services	Skilled nursing facility services for patients under 21	Optometric services	Podiatry services	Chiropractic services	Care for patients 65 or older in institutions for mental diseases	Care for patients 65 or older in institutions for tuberculosis	Care for patients under 21 in psychiatric hospitals	Institutional services in intermediate care facilities

Services provided only under the Medicare buy-in or the screening and treatment program for individuals under 21 are not shown on this chart.

Definitions and limitations on eligibility and services vary from State to State. Details are available from local welfare offices and State Medicaid agencies.

Intermediate Care Facilities (ICF): P.L. 92-223 transferred the ICF program to Medicaid (Title XIX) as an optional service, effective 1-1-72. States may at their option include institutions for the mentally retarded, both public and private. See footnote five.

1. Data from Regional Office reports of characteristics to State programs and State plan amendments.

2. People qualifying as members of families with dependent children (usually families with at least one parent absent or incapacitated).

3. People qualifying as aged, blind, or disabled under the Supplemental Security Income program.

4. FMAP - Federal Medicaid Assistance Percentage: Rate of Federal financial participation in a State's medical vendor payment expenditures on behalf of individuals and families eligible under Title XIX of the Social Security Act. Percentages, effective from October 1, 1977, through September 30, 1979, are rounded.

5. Including ICF services in institutions for the mentally retarded.

Intermediate Care Facilities (ICF): P.L. 92-223 transferred the ICF program to Medicaid (Title XIX) as an optional service, effective 1-1-72. States may at their option include institutions for the mentally retarded, both public and private. See footnote five.

TECHNICAL NOTES

1. Chart I is based upon actual Medicaid expenditure data reported by the States on quarterly report form OA-41, Statement of Expenditures. The figures shown include State and local expenditures for Administration and Training, as well as Medical Assistance Payments. The data are compiled annually in the report "State Expenditures for the Medical Assistance Program" by the HCFA Office of Management and Budget.
2. The unduplicated recipient counts presented in Chart II are adjusted to exclude those recipients reported as adults, aged 21-64, who are covered by a State assistance program other than Title XIX. The source documents, "Medicaid State Tables," and "Medicaid Statistics," are prepared annually by the HCFA Office of Research, Demonstrations, and Statistics. "Medicaid State Tables" is based on the annual statistical reports, HCFA-2082, submitted by the States; while "Medicaid Statistics" is based on a compilation of the twelve monthly statistical reports, HCFA-120, submitted by the States. "Medicaid State Tables" is the source for all years except 1971 and 1977 which are from "Medicaid Statistics."
3. The unduplicated recipient counts in Chart III excluded those recipients reported as adults, aged 21-64, who are covered by a State assistance program other than Title XIX. In addition, children in AFDC families have been combined with other dependent children under age 21 to form the category "children under 21." The source is "Medicaid Statistics," Fiscal Year 1977.
4. The official expenditures published in "State Expenditures for the Medical Assistance Program" are not broken out by basis of eligibility. The Medicaid payment data published in "Medicaid Statistics," however, are broken out by basis of eligibility. Chart IV was created by determining the percentage of Medicaid payments accounted for by each of the eligibility categories in "Medicaid Statistics," Fiscal Year 1977, and then applying each of the percentages to the total Medical Assistance Payment expenditures published in "State Expenditures for the Medical Assistance Program," Fiscal Year 1977.

Chart IV, therefore, represents an estimate of the breakout by basis of eligibility of the total official Medical Assistance Payment expenditures for Fiscal Year 1977. Those recipients and payments reported as adults, aged 21-64, covered by a State assistance program other than Title XIX were excluded from the computations involved in preparing Chart IV.

5. Chart V is based upon the breakout of Medicaid payments by type of service published in "Medicaid Statistics," Fiscal Year 1977. Payments reported for those adults, aged 21-64, covered by a State assistance program other than Title XIX were included in the computations.
